Specialist Products

We at YiB wanted to make sure that you are aware of some of the specialist products on the market.

In the last few years, changes in legislation and technology have created new risks that were perhaps not of great concern years ago, however we can see the claim trends growing in these specific areas and encourage you to consider taking up these covers where you haven't already got them, and where you feel your business may be exposed:

Directors and Officer Liability: Protecting Directors and Officers can be held liable in their personal capacity for losses for acts committed while acting in their role of Management/Directorship.

Cyber Liability: Covering Cyber Liability, Crisis management and Notification expenses, Data Recovery and Business Interruption, Cyber Extortion and Digital Media Liability

Professional Indemnity: Protecting your company against alleged Errors and Omissions or negligence – tailor made for specific industries/professions (litigation can cost hundreds of thousands and even millions in defence of a lawsuit).

Commercial Crime and Third Party Impersonation Fraud Insurance: Computer fraud by hacking, loss of data via Computer viruses, Extortion or Fraudulent transfer instructions

If you would like to look into any of the above mentioned covers, or any other Insurance covers for your business, please do not hesitate to contact us at info@yib.co.za or call us on 011 702 6600.
